

Update for our stakeholders

Dear stakeholders,

Below a brief update.

In these days we have fully analysed, jointly with our lawyers the request presented by the Milanese prosecutors to the judge (GIP of the Court of Milan).

The pool of lawyers that accepted to follow Coima SGR and myself are among the best and most reputable professionals in Italy including:

- Prof. Paola Severino for Coima SGR
- Prof. Francesco Mucciarelli and Avv. Adriano Raffaelli for myself as legal representative of Coima SGR.

Yesterday we have held the Board of Directors of Coima SGR to share in details the merit of the arguments by the prosecutors with the support of our lawyers and activated all appropriate actions.

We are preparing an exhaustive document with factual evidence that the arguments indicated by the prosecutors are objectively not true.

The document will be formally submitted on Wednesday 23rd at the interrogation with the judge scheduled at 2pm.

In respect of the judiciary system, we are not releasing any official declarations before the scheduled interrogation. Thereafter, we will make our arguments available following the transparent approach that distinguishes the work of the people of Coima from its foundation.

We are grateful for your confidence in our professionalism and integrity and we will work diligently to affirm these principles in all necessary contexts.

We remain at your disposal.

Kind regards.

Manfredi Catella
Founder & CEO, COIMA SGR
